lokalise

Lokalise AI Orchestration

Human-level translations.
10x faster. 80% less cost.

😐 The challenge

Global companies need content that feels natural, on-brand, and accurate in every language. Traditional translation workflows are slow, costly, and hard to scale.

😄 The solution

Lokalise delivers **publish-ready AI translations you'll love the first time.** Our proprietary AI orchestration combines multiple AI engines with your brand context—translation memories, glossaries, style guides—to produce human-quality results at scale.

♡ Trusted by global teams

"We launched 7 new languages, 100,000+ words per language, and AI allowed us to do the initial lift in up to 80% less time and 80% less cost."

Joaquín Muñoz,
Localization Manager

Life360 + **lokalise**

✦ Why AI translation with Lokalise?

Unlike generic AI tools, Lokalise is **built for localization.** We orchestrate multiple AI engines, layer in your unique context, and add smart scoring so you know when it's safe to publish—no guesswork, no wasted reviews.
