

## Translate content faster and at scale

Make translation workflows more efficient with Lokalise AI. Get on-brand, accurate, and context-specific translations, in less time and with just one click.

Translate  
**8X faster**

Takes just 1 hour for  
**8000 words**

Cut translation time in half  
**50% time back**

### What Lokalise AI customers are saying

“It took only 2 weeks to translate a project with ~25,000 keys keys. It would have taken at least a month using solely human translators.”

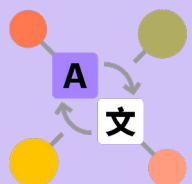

Ella Brand,  
Staff Technical Program Manager, Lattice

### Make translation workflows efficient

#### Thousands of words with one click

Prepare content for different markets all in one go in as many languages as you need.

#### Translate with context

Translate content with context for translations that are on-point.

#### Guarantee brand consistency

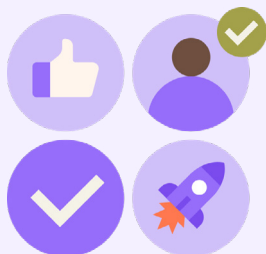

Add your style guide and glossary to create the same brand experience in all markets.

#### Double-down on quality

Generate QA quality reports with just one click to monitor and maintain translation quality.

### More about translation quality

**90%**  
of translations with Lokalise AI didn't require any post-editing changes \*

“Using Lokalise AI and an agency review, we got translations in a quarter of the time with a cost reduction of up to 70% and zero reduction in quality.”

Guthrie Watson,  
Head Of Design, Kinto
